BrightWork

LIVE WEBINAR

Project and Portfolio Management in a HIPAA/HITRUST Cloud

Wednesday | October 24th

6pm BST | 1pm EDT | 10am PDT

presented by

Eamonn McGuinness
CEO
BrightWork

Mark Bodo
Enterprise Account Executive
Project Hosts, Inc.

QUICK POLL!

Are you looking to extend SharePoint for Project and Portfolio Management?

AGENDA

1. What it takes to get your organization HIPAA/HITRUST compliant - ***Project Hosts***
2. How to start managing your project and portfolios on SharePoint quickly - ***BrightWork***
3. Get started with the new **HIPAA/HITRUST Project Management Jumpstart**
4. Q&A

HIPAA vs. HITRUST

- Self certification
- Audited via ISO or FedRAMP
- Outdated
- Not very prescriptive

  Example: passwords

  Covered entities should “implement procedures for creating, changing, and safeguarding passwords”

- Official certification
- Audited by HITRUST certified auditors
- Continually updated
- Prescriptive

  Example: passwords

  - Minimum length: 8 characters
  - Complexity: 3 out of 4 character types
  - Change requires 4 changed characters
  - Password expiration: Every 60 days
  - Reuse: Can’t use last 6 passwords
  - Etc.

Result: Many Payers and other Covered Entities are requiring HITRUST

Security to Implement Above Azure

1. Access Control
2. Identity & Authentication
3. Server lockdown
4. Encryption in transit, at rest
5. Vulnerability Scanning
6. Patching & Updating
7. Test environment
8. Change Management
9. Anti Malware & IDS/IPS
10. Event Logging & alerting
11. Incident Response
12. Backup & DR with testing
13. Cybersecurity Training
14. Third party audit

and more … but these are the “top 14”

Options for Deploying in Azure

Do It Yourself
Time: 3-6 months

You need to

1. **Learn Azure, HIPAA and HITRUST**
2. **Implement App level security and controls in Azure**
3. **Get certified**
4. **Provision your app in Azure**
5. **Support it**

AZURE Infrastructure

Project Hosts Does it
Time: 1-2 weeks

You need to

1. **Teach us all the aspects pertain to your application**
2. **Get privileged access to control your app**

We need to

1. **Provision your app in a certified Azure environment**
2. **Provide on going support**

AZURE Infrastructure

What We Offer…

- HIPAA/HITRUST Compliant Azure Security envelopes
- Backup, Archiving and Disaster Recovery Solutions
- Websites and Portal Solutions
- Virtual Desktop Solutions

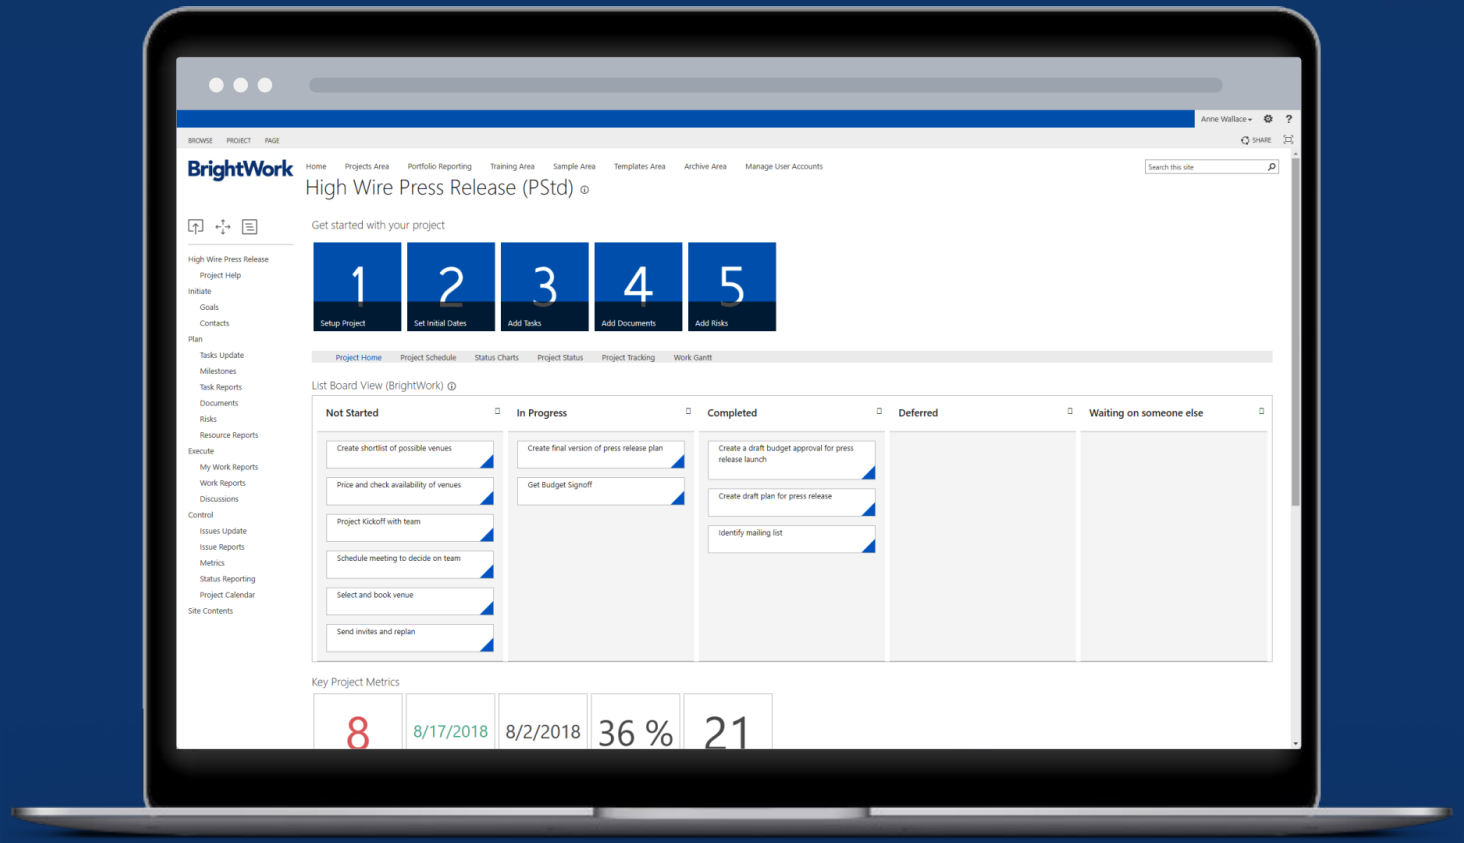
DEMO



BrightWork

Managing your Projects using Excel

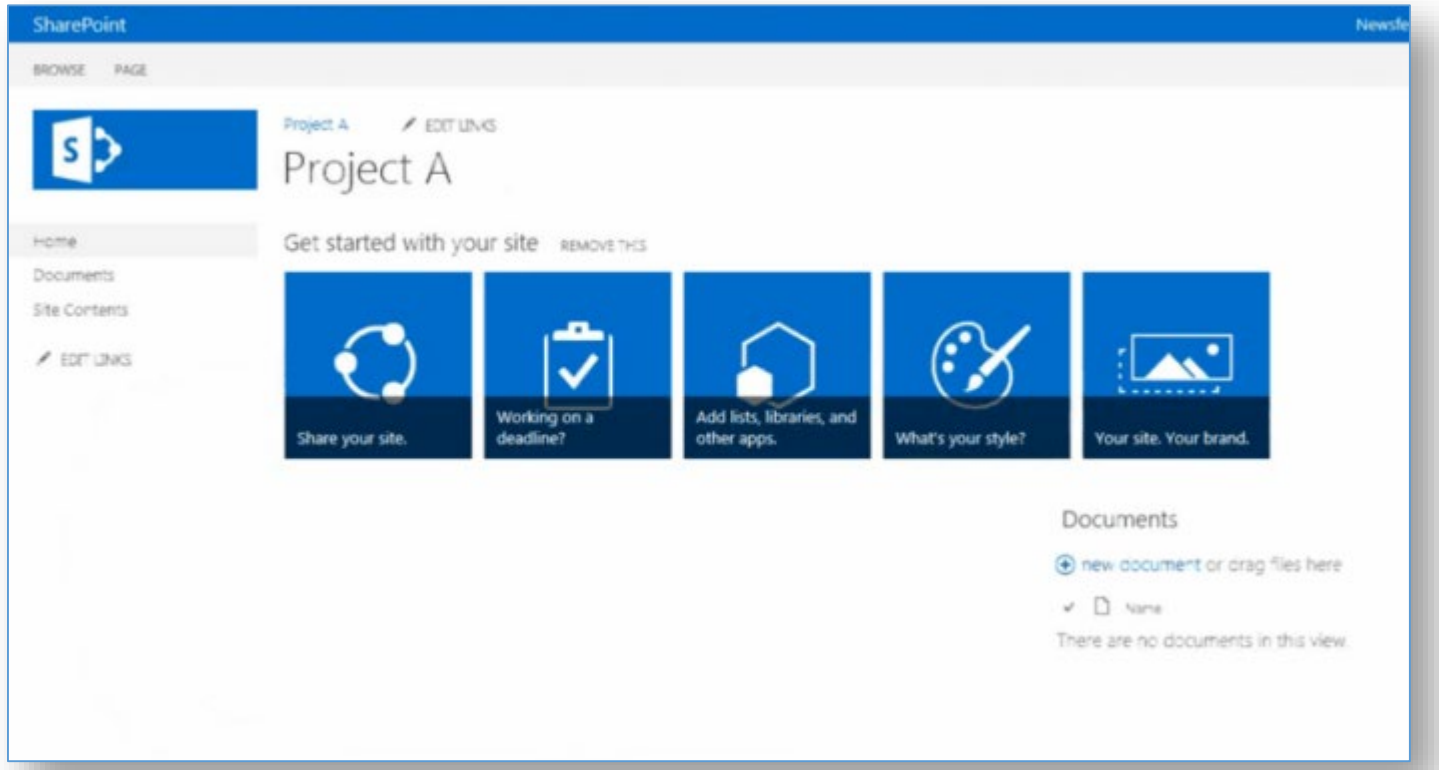
- Frustratingly time consuming
- Project information is not up-to-date or accurate
- Lack of collaboration
- Too much information
- Difficult to report on the progress of the project

	A	D	E	F	G
1	Task Name	Medium	Responsible	Due Date	Status (Choice)
2	**Finalize Website Messaging**				
3	Brainstorm over core content	Workshop	Team	Tuesday 9 October 2018	Completed
4	Interview Engineering Department	Meeting	Brian	Thursday 11 October 2018	Completed
5	Keyword and searcher intent research for Website	SEMRush	Jen	Monday 15 October 2018	Completed
6	Finalize messaging framework	Workshop	Team	Tuesday 30 October 2018	Not Started
7	**Campaign Content**				
8	Home Page Update	Website update	Brian	Wednesday 17 October 2018	Late
9	Internal Link Review		Micheál	Monday 22 October 2018	In Progress
10	SEO and Technical review of Home page		Jen	Thursday 25 October 2018	Not Started
11	Review length of Home Page and content		Brian	Friday 2 November 2018	Not Started
12	**Blog Posts**				
13	3 Key Updates in the BrightWork 15.9 New Release	Blog post	Aaron	Wednesday 17 October 2018	Completed
14	Bring Your Projects Back from the Dead!	Blog post	Jen	Friday 19 October 2018	Late
15	4 Reasons to Use SharePoint for Project Management	Blog post	Eve	Monday 22 October 2018	Not Started
16	How to Use Project Portfolio Metrics to Deliver Business Value	Blog post	Brian	Wednesday 24 October 2018	In Progress

BrightWork

Managing your Projects using SharePoint

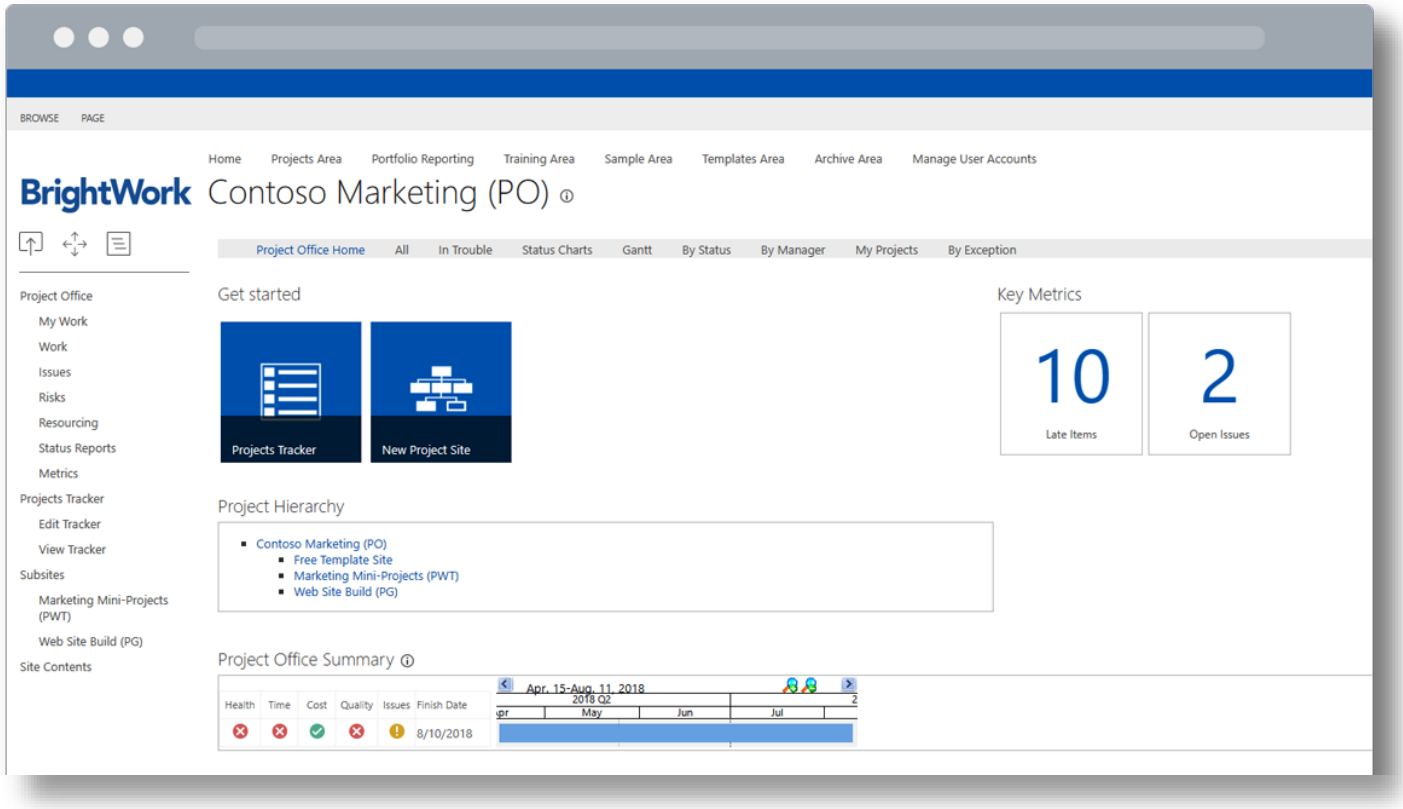
- Introduces collaboration features
- Requires hours of configuration to organise for project management
- No standardized process for project management out of the box
- Requires some technical knowledge and experience to configure
- No cross-project reporting in native SharePoint



BrightWork

Managing your Projects using BrightWork

- Project management templates to get you started quickly.
- Visibility over across multiple projects with real time portfolio dashboards.
- Collaborative team sites.
- Easily-generated, automatic reporting.
- Evolve Project Management Best Practices with ease.



What you get…

- HIPAA/HITRUST Compliant Azure Security envelopes
- Microsoft Azure
- BrightWork JumpStart
- Secure and Compliant End user ☺
