# Upgrading to BrightWork 365

[Contact Customer Success](#)

Our approach to upgrading your BrightWork 365 solution includes:

- A pre-evaluation of your Microsoft 365 solution to facilitate a smooth upgrade process.
- Providing on-hand technical assistance during the upgrade process.
- Updating any processes to leverage and new features of the latest release.

A member of our technical team will work with your Microsoft 365 administration team to upgrade your tenant to the latest version of BrightWork 365.

They will confirm the solution upgrade and answer any post-upgrade questions you may have.

## Project Requests

- Capture and manage new ideas from anyone in your organization in one solution.
- Improve project governance by approving and resourcing the right projects to support strategic goals.
- Get visibility into the project pipeline to inform business planning.
- Provide clarity about the objectives of the project to help project teams reach their goals.
- Streamline the decision process to get a fast start on key projects.

## Manage Projects

- Save time during project setup with templates and stages.
- Streamline project set up by using the Microsoft 365 apps you are familiar with in one app.
- Improve project quality with stage gates, providing in-built checks at every project phase.
- Save time and reduce errors with automation.
- Ensure stakeholder satisfaction with a clear project charter, including acceptance criteria for deliverables.

## Manage Portfolios

- See how portfolios are performing with at-a-glance, real-time reports.
- Take action quickly to address issues and keep projects on track.
- Visualize project data with interactive reports to understand complex information quickly.
- Reclaim lost time with fewer meetings and lengthy email chains.

## DEPLOYMENT SERVICES

- Your dedicated Customer Success Partner is with you at every step.
- The BrightWork 365 Start Service is based on our 3D Deployment (Design, Deliver, Deploy) approach.
