## Sample Sync Log List

Lists		
	<a href="#">Links</a>	Use the Links list for links to Web pages that your team members will find interesting or useful.
	<a href="#">Project Announcements</a>	Use this list to track upcoming events, status updates or other team news.
	<a href="#">Project Office Metrics</a>	Use the Project Metrics list to track metrics for a project.
	<a href="#">Project Statement</a>	Use the Project Statement list to capture and provide top-level and summary information about the project.
	<a href="#">Report - Tabs</a>	Use the Tabs list to organise links to pages in a tab layout. The Tabs list should be used in conjunction with the Tabs web part on your site.
	<a href="#">Site Sync Log 2012-07-09_17-02-56</a>	Site Sync Log

# Report

The Report is based on a Site Sync Log list & Site Provisioning List. List Items are grouped by Web Name and List Name. The Severity of the Sync item is listed on the left. Severity can range from *error* to *information*.
